MEDIUM + HEAVY DUTY TRUCK WATER PUMPS

Includes All Applications

POWERCLEAN™ Flush Tool

Cooling systems can be difficult to flush completely due to accumulated debris. Inadequate flushing can ruin a newly installed water pump and result in warranty problems and frustrated customers. Make sure you perform a complete cooling system flush by using clean water and compressed air. The Power Clean Flush Tool “water hammers” accumulated sludge and scale deposits without the use of harsh chemicals or solvents. It cleans radiators, heat exchangers, hoses and engine blocks more effectively than conventional flushes, maintains system integrity and ensures warranty coverage on replacement parts, including water pumps. The Gates Power Clean Flush Tool patented process uses fixed dimensional control of the air and liquid flow paths. The process allows air to pressurize the cleaning fluid to scrub deep into corners and crevices, eliminating trapped debris. Part No. 91002.

Warning

Be safe! Do not use Gates belts, pulleys or sprockets on any aircraft propeller or rotor drive systems or in-flight accessory drives. Those Gates products are not designed or intended for aircraft use.

Caution

Use Gates products only on applications specified in Gates literature. Install and maintain products according to the vehicle manufacturers' recommended procedures and with recommended tools. Failure to follow these instructions could result in injury or property damage. Gates disclaims all liability due to failure to follow these instructions.

Limited Warranty

Gates Heavy Duty Water Pumps carry a warranty of 18 months or 150,000 miles / 5,400 hours whichever comes first. Gates will replace or repair, at its option, any Goods proved defective in material or workmanship during the warranty period. This is the sole remedy for breach of warranty. Color fade and color difference is not warranted. This warranty is void if the defect is caused by improper installation, use or maintenance of the Goods, or used for racing or competition. Goods are not warranted to comply with laws that may apply to uses of the Goods not stated in related materials, e.g., use in manned or unmanned aviation or life support applications.

ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXPRESSLY DISCLAIMED. FAILURE TO REPLACE TIMING BELTS OR OTHER GATES PRODUCTS AS SPECIFIED MAY RESULT IN CATASTROPHIC ENGINE OR EQUIPMENT DAMAGE FOR WHICH GATES DISCLAIMS ALL RESPONSIBILITY, TO THE EXTENT PERMITTED BY APPLICABLE LAW.

We hereby certify that the goods will be produced in compliance with requirements of Sections 6 and 7 of the Fair Labor Standards Act of 1938, as amended, and of regulations and orders of the U.S. Department of Labor issued under Section 14 thereof.

Seller does not agree to any terms and conditions except those set forth herein and in its current price schedules and in its quotation, if any shipment of any merchandise by Seller will be on said terms and conditions, and no modification shall be affected by the acknowledgement or acceptance of any purchase order forms containing different terms and conditions from those set forth herein.

This publication contains the latest information available to our engineers. If you require additional application or part number information, contact the Automotive Product Application Tech Line at 303-744-5651.

Professional-Grade Tools

POWERCLEAN™ Flush Tool

Cooling systems can be difficult to flush completely due to accumulated debris. Inadequate flushing can ruin a newly installed water pump and result in warranty problems and frustrated customers. Make sure you perform a complete cooling system flush by using clean water and compressed air. The Power Clean™ Flush Tool "water hammers" accumulated sludge and scale deposits without the use of harsh chemicals or solvents. It cleans radiators, heat exchangers, hoses and engine blocks more effectively than conventional flushes, maintains system integrity and ensures warranty coverage on replacement parts, including water pumps. The Power Clean™ Flush Tool patented process uses fixed dimensional control of the air and liquid flow paths. The process allows air to pressurize the cleaning fluid to scrub deep into corners and crevices, eliminating trapped debris. Part No. 91002.

- Pulsating gun assembly with pre-set regulator.
- Water line backflow preventer.
- Large rubber tip for radiator necks and direct flushing of the engine block.
- Small rubber tip on whip hose for direct access to heater core tube stubs.
- 5/8" And 3/4" heater hose barbs for flushing heater cores or engine blocks.
- Durable protective storage case with room for additional items.

2012 Gates Master Products Catalog

The 2012 Gates Master Products Catalog contains product pictures, sizing charts, SAE specifications, new products and educational information, and much more.

This full color, 96 page guide has been designed to be your one-stop shop for the rich product information detailing what separates Gates from the competition. Whether it is Automotive or Industrial - belts, hose, tensioners or hydraulics - it is our hope that this guide will prove to be beneficial in your future selling endeavors.

Master Product Catalog

The longest lasting belt tensioners in the industry.

Engineered to exceed demanding OEM requirements.

Today heavy duty engines are more demanding than ever before, and the parts that keep them running require more strength, stability, exibility, wearability and load carrying capability. Diesel engines, with their extreme shaking and vibration, are inherently harsh on automatic tensioners. Gates manufactures the longest running, longest lasting heavy duty tensioners and pulleys in the industry to keep you and your fleet on the road longer.

In laboratory tests, under extreme peak-to-peak vibration and contamination tests, DriveAlign® heavy-duty tensioners lasted up to three times longer than competitive aftermarket tensioners.

- Labyrinth Seal – prevents contamination of internal parts for maximum durability and service life.
- Machined Steel Pulley – reduces surface wear while shielding internal bearing from outside contaminants.
- Double Row Bearings – twin rows of bearings carry more load and last up to three times longer than two individual bearings.
- Optimized Components – engineered for maximum strength and durability.
- Patented Design – provides superior belt alignment and tension for improved drive efficiency and life.
- Round Spring Wire – includes chrome-silicone torsion spring for less flex-fatigue than flat-wire designs.
- Patented Damping Mechanism – provides maximum stability, reducing vibration and increasing the life of belt, tensioner and other accessory drive components.

Complete Product Line at Competitive Pricing.

NEW PUMPS MANUFACTURED TO ISO/TS STANDARDS.

85 SKUs For Virtually Any Heavy-Duty/Fleet Application.

Gates new Heavy-Duty Water Pump product line offers high quality pumps at competitive pricing, with full coverage, so you can be sure to get the parts you need. Gates Water Pumps are constructed with premium alloy materials, computer-tooled, and fitted with a precisely balanced impeller to ensure OE fit and function. Each pump undergoes a 100% functional test of seals and bearings, and a 100% leakage test for both the casting and assembled water pump.

You can confidently install Gates Heavy-Duty Water Pumps and focus on keeping your fleet on the road and out of the shop. As with all our Heavy-Duty products, you can count on high-quality, reliable parts that will deliver worry-free operation for the life of the vehicle. For more information about Gates Heavy-Duty Water Pumps please contact your Gates Sales Representative.
